A Note of Leadership

25th IIPLA 2025 Dubai and 19th World Lawyers Forum 2025 Dubai

Dear Esteemed Colleagues and Friends,

It is with immense pride and anticipation that I welcome you to the **25th edition** of the **International Intellectual Property Law Association (IIPLA) 2025 Dubai** and the **19th edition** of **World Lawyers Forum (WLF) 2025 Dubai**, hosted in the vibrant city of Dubai at the prestigious **Pullman Dubai Deira City Centre**. These events serve as a vital platform for fostering innovation, collaboration, and thought leadership in the fields of intellectual property and law.

Our thoughtfully curated agenda is designed to tackle the most pressing issues shaping the global legal and intellectual property landscape. We will explore crucial IP topics, including patents, trademarks, copyrights, trade secrets, and their convergence with emerging technologies. Alongside this, discussions will delve into

the latest trends in litigation, dispute resolution strategies, branding and marketing for legal professionals, and the challenges posed by data privacy and compliance. These sessions promise not only to inform but to inspire actionable strategies for addressing today's complex legal and business challenges.

The event will feature an extraordinary lineup of speakers, including esteemed legal minds and IP professionals, who will share their expertise and real-world experiences. Their invaluable insights will equip attendees with practical knowledge to navigate the intricacies of legal and IP practices while fostering growth and innovation in their respective fields.

I would like to take this opportunity to express my sincere gratitude to our sponsors and exhibitors, whose unwavering support has been instrumental in making these events a success. **A special thanks to Minesoft, Emirates IP Services, Safenames Ltd, INLEX IP, Morae, Lex Ally Global FZC LLC, Lexlegis.ai, Menteso IP, and Patent Drawing Experts** for their commitment to excellence and innovation. These organizations continue to lead the way in shaping the future of our industries, and I encourage all participants to visit their exhibits and explore the groundbreaking solutions they offer.

As we gather in Dubai, a city known for its ambition and innovation, I encourage you to take full advantage of this exceptional event. Engage in meaningful conversations, build lasting connections, and depart with fresh perspectives and actionable insights. Together, we can strengthen the global legal and IP community and drive forward a vision of progress and excellence.

Thank you for joining us at this landmark event. I look forward to meeting many of you and wish you a productive and inspiring experience in Dubai.

Warm regards,

Azam Ghani

Omega Sales Trainings

Increase your Sales by our experts.

Herbert Schmidt CEO, MBA Sales Expert & Coach

Herbert Schmidt is an outstanding sales personality and the undisputed number one in sales deals at one of the largest service providers in the patent industry.

With 30 years of experience in sales, he has a track record that is second to none. Incentivizing sales and closing deals are literally in Herbert's blood. His natural instinct for successful negotiations and his ability to pinpoint customer needs have made him one of the most respected experts in his field.

However, Herbert is not only happy to share his success, but also his knowledge. In his individualized sales training courses, he passes on his extensive know-how and combines two extraordinary skills: in-depth knowledge of intellectual property (IP) and outstanding sales expertise.

This unique combination makes his trainings particularly valuable for companies that complex products and services. Participants in his workshops learn how to use strategic IP knowledge effectively to convince customers, build trust and close deals sustainably.

Whether you're looking to take your sales department to the next level or you're in sales yourself, Herbert Schmidt is the partner to show you how to close more deals and build long-term customer relationships in the process.

Get inspired by one of the best in the industry!

Clemens Meikis CEO, Jurist Sales Expert, IP Headhunter

Clemens Meikis combines two worlds: With 20 years of experience in sales and a background as a jurist, he brings a unique perspective to the patent industry. For over a decade, he has used his expertise as a successful headhunter to bring together specialists and companies in the patent industry.

For Clemens, recruiting is more than just sales - it is "Sales PLUS". Attracting new talent for law firms and companies requires not only negotiating skills, but above all the ability to build trust and inspire people. After all, a move to a new position often means a decisive change of course in life - a change that requires courage and orientation.

Clemens has already accompanied hundreds of IP experts on their career path and helped them to make significant steps at renowned law firms and companies. His successful work is based on a deep understanding of the needs of employers and candidates, combined with exceptional empathy and strategic know-how.

Clemens shares this extensive experience in his individualized sales training sessions. His approach goes beyond traditional sales methods: he shows how to build relationships, inspire people and get to the heart of complex decisions. Participants benefit not only from his expertise in sales, but also from his industry-specific knowledge and many years of experience.

Whether you want to develop your sales, recruiting or relationship management skills, Clemens offers valuable insights and strategies that you can put directly into practice.

Take the next step with a coach who not only inspires, but also delivers results!

IP SERVICES

Patent Prosecution

As scientists and engineers, we are able to work effectively with both inventors and patent examiners to secure litigation-ready patent rights throughout the world.

Freedom to Operate

Identifying what competitors already own is crucial. An FTO search provides an accurate, actionable assessment to make informed business decisions *before* large potential investments.

IP Strategy

As corporate priorities evolve, an IP overview can assess the quality, relevance, and diversity of the patent portfolio, bringing it into alignment with strategic objectives.

IP Due Diligence

With expertise in science, patent prosecution, and patent litigation, we provides objective assessments of the value of IP portfolios for their potential sale or license.

Streamline Innovation with IP Portfolio Management

In Today's Innovation-driven world, Intellectual Property is vital for protecting groundbreaking ideas. The services like Patent Search and Analytics play a crucial role in this process. The Patent search ensures the novelty of inventions, avoiding conflicts while offering insights into market trends and competitor strategies.

IP Docketing simplifies managing of the deadlines, ensuring No Critical Dates are missed, safeguarding IP Prosecution. Meanwhile, the Patent Application is drafted by expert professional. Also, the effective prosecution ensures the idea is turned into Protected Assets, ensuring broad legal coverage across Jurisdictions. These Comprehensive Services empower Businesses to focus on innovation, leaving the complexities of IP management to trusted experts.

From Idea to Patent: The Invention to Filing Journey

Innovation is the engine of progress, and every groundbreaking product or solution begins with a simple idea. However, turning that idea into a protected intellectual asset can be a challenging journey. This is where Invention to Filing services come in, offering inventors a seamless process to safeguard their ideas. These services begin by evaluating the feasibility and uniqueness of your concept, ensuring it meets patentability standards.

A comprehensive patent search is performed to confirm the novelty of your idea, avoiding potential conflicts with existing patents. The Search is then followed by Patent Application drafting by Expert professionals ensuring compliance with legal standards. Finally, the filing process is managed with precision, including follow-ups to navigate patent office requirements.

These services minimize the risk of errors, ensuring your intellectual property is properly protected. By embracing Invention to Filing services, inventors can confidently transform their ideas into legally recognized assets, paving the way for innovation to thrive.

Patent Drawing Experts

Exclusive Patent Drawing Services for Utility & Design Patents

When securing a patent, high-quality, precise patent drawings are crucial. These drawings are essential for utility and design patents, serving to clearly convey the details of an invention. For utility patents, which cover functional inventions, drawings must highlight all components and their operation. For design patents, the focus is on capturing the ornamental aspects of a design, ensuring every curve and shape is precisely represented.

Exclusive patent drawing services are tailored to meet the specific needs of each invention, ensuring they adhere to strict guidelines set by patent offices like the USPTO. Professional patent drawing experts provide detailed, accurate, and visually compelling drawings, which play a key role in securing patent approval. Whether for utility or design patents, working with professionals guarantees that your intellectual property is documented to the highest standard, protecting your innovation effectively.
